# Problems paying your child support?

## We can help. **The Alternative Solutions Program**

*Transforming lives*

## Our story

As part of Washington State's Division of Child Support (DCS) the Alternative Solutions Program works as a bridge between community services and the people they assist.

**We believe people can recover, reclaim, and transform their lives.**

The Alternative Solutions Program looks to change the way child support is viewed. Our approach considers each parent's needs. Our program provides information and education on how DCS works, making the process easier to understand.

**The mission of the Alternative Solutions Program is to make families and communities stronger by connecting people to resources and partners.**

## Our commitment

The Alternative Solutions Program works with you one on one. Using resources from across the state our program will create a plan with you that can help you get back on your feet.

Our staff will work compassionately with you to address the barriers that keep you from being able to pay your child support.

The Alternative Solutions Program is committed to your success. Give us a call or send us an email.

**We look forward to hearing from you.**

## How we can help

When you participate in the Division of Child Support's (DCS) Alternative Solutions Program your support officer will work with you to design an action plan for your needs that can include:

- Working with community partners that can help with employment, housing, food, medical, legal resources, and much more.
- DCS direct services that may help lower your monthly payments or reduce state debts.
- Help with license suspension and other enforcement actions.
- Referrals to the Economic Services Administration's Employment Pipeline, a direct employment service developed in partnership with the Department of Social and Health Services.

Using a database of over 3,000 community resources across the state, Alternative Solutions can connect you to the services you need.
